No. 700 ASSORTMENT

THIS "MASTER" DISPLAY WILL INCREASE YOUR SALES OF HIGH PROFIT SCREW DRIVERS

THE DISPLAY FIXTURE IS FREE!
YOU PAY ONLY FOR THE SCREW DRIVERS

(Refer to other side of this page for prices and complete specifications)

Bridgeport No. 700 Assortment provides a balanced, minimum stock of top-quality screw drivers mounted on the largest, most valuable Display-Dispenser Board ever offered. Handsomely decorated 5-ply Hardwood 30x24x5 inches, imprinted with the trade number, size and price of each item.

For increased turnover of high profit screw drivers, feature the No. 700 Master Assortment.

There are from one to three of a kind in 32 styles and sizes. Total quantity—80 screw drivers. All have hammer-proof, shock-proof, lustrous Amberlite Handles and finest Alloy Steel Blades.

As shown on the above full-color illustration, every tool in the assortment has maximum display and attention value.

No. 600 "JUNIOR" ASSORTMENT

INCREASE YOUR SALES OF HIGH PROFIT SCREW DRIVERS WITH THIS SMALL, EFFECTIVELY-DISPLAYED BALANCED STOCK OF 17 TYPES AND SIZES.

THE FINEST SCREW DRIVERS WITH THE BEST DISPLAY

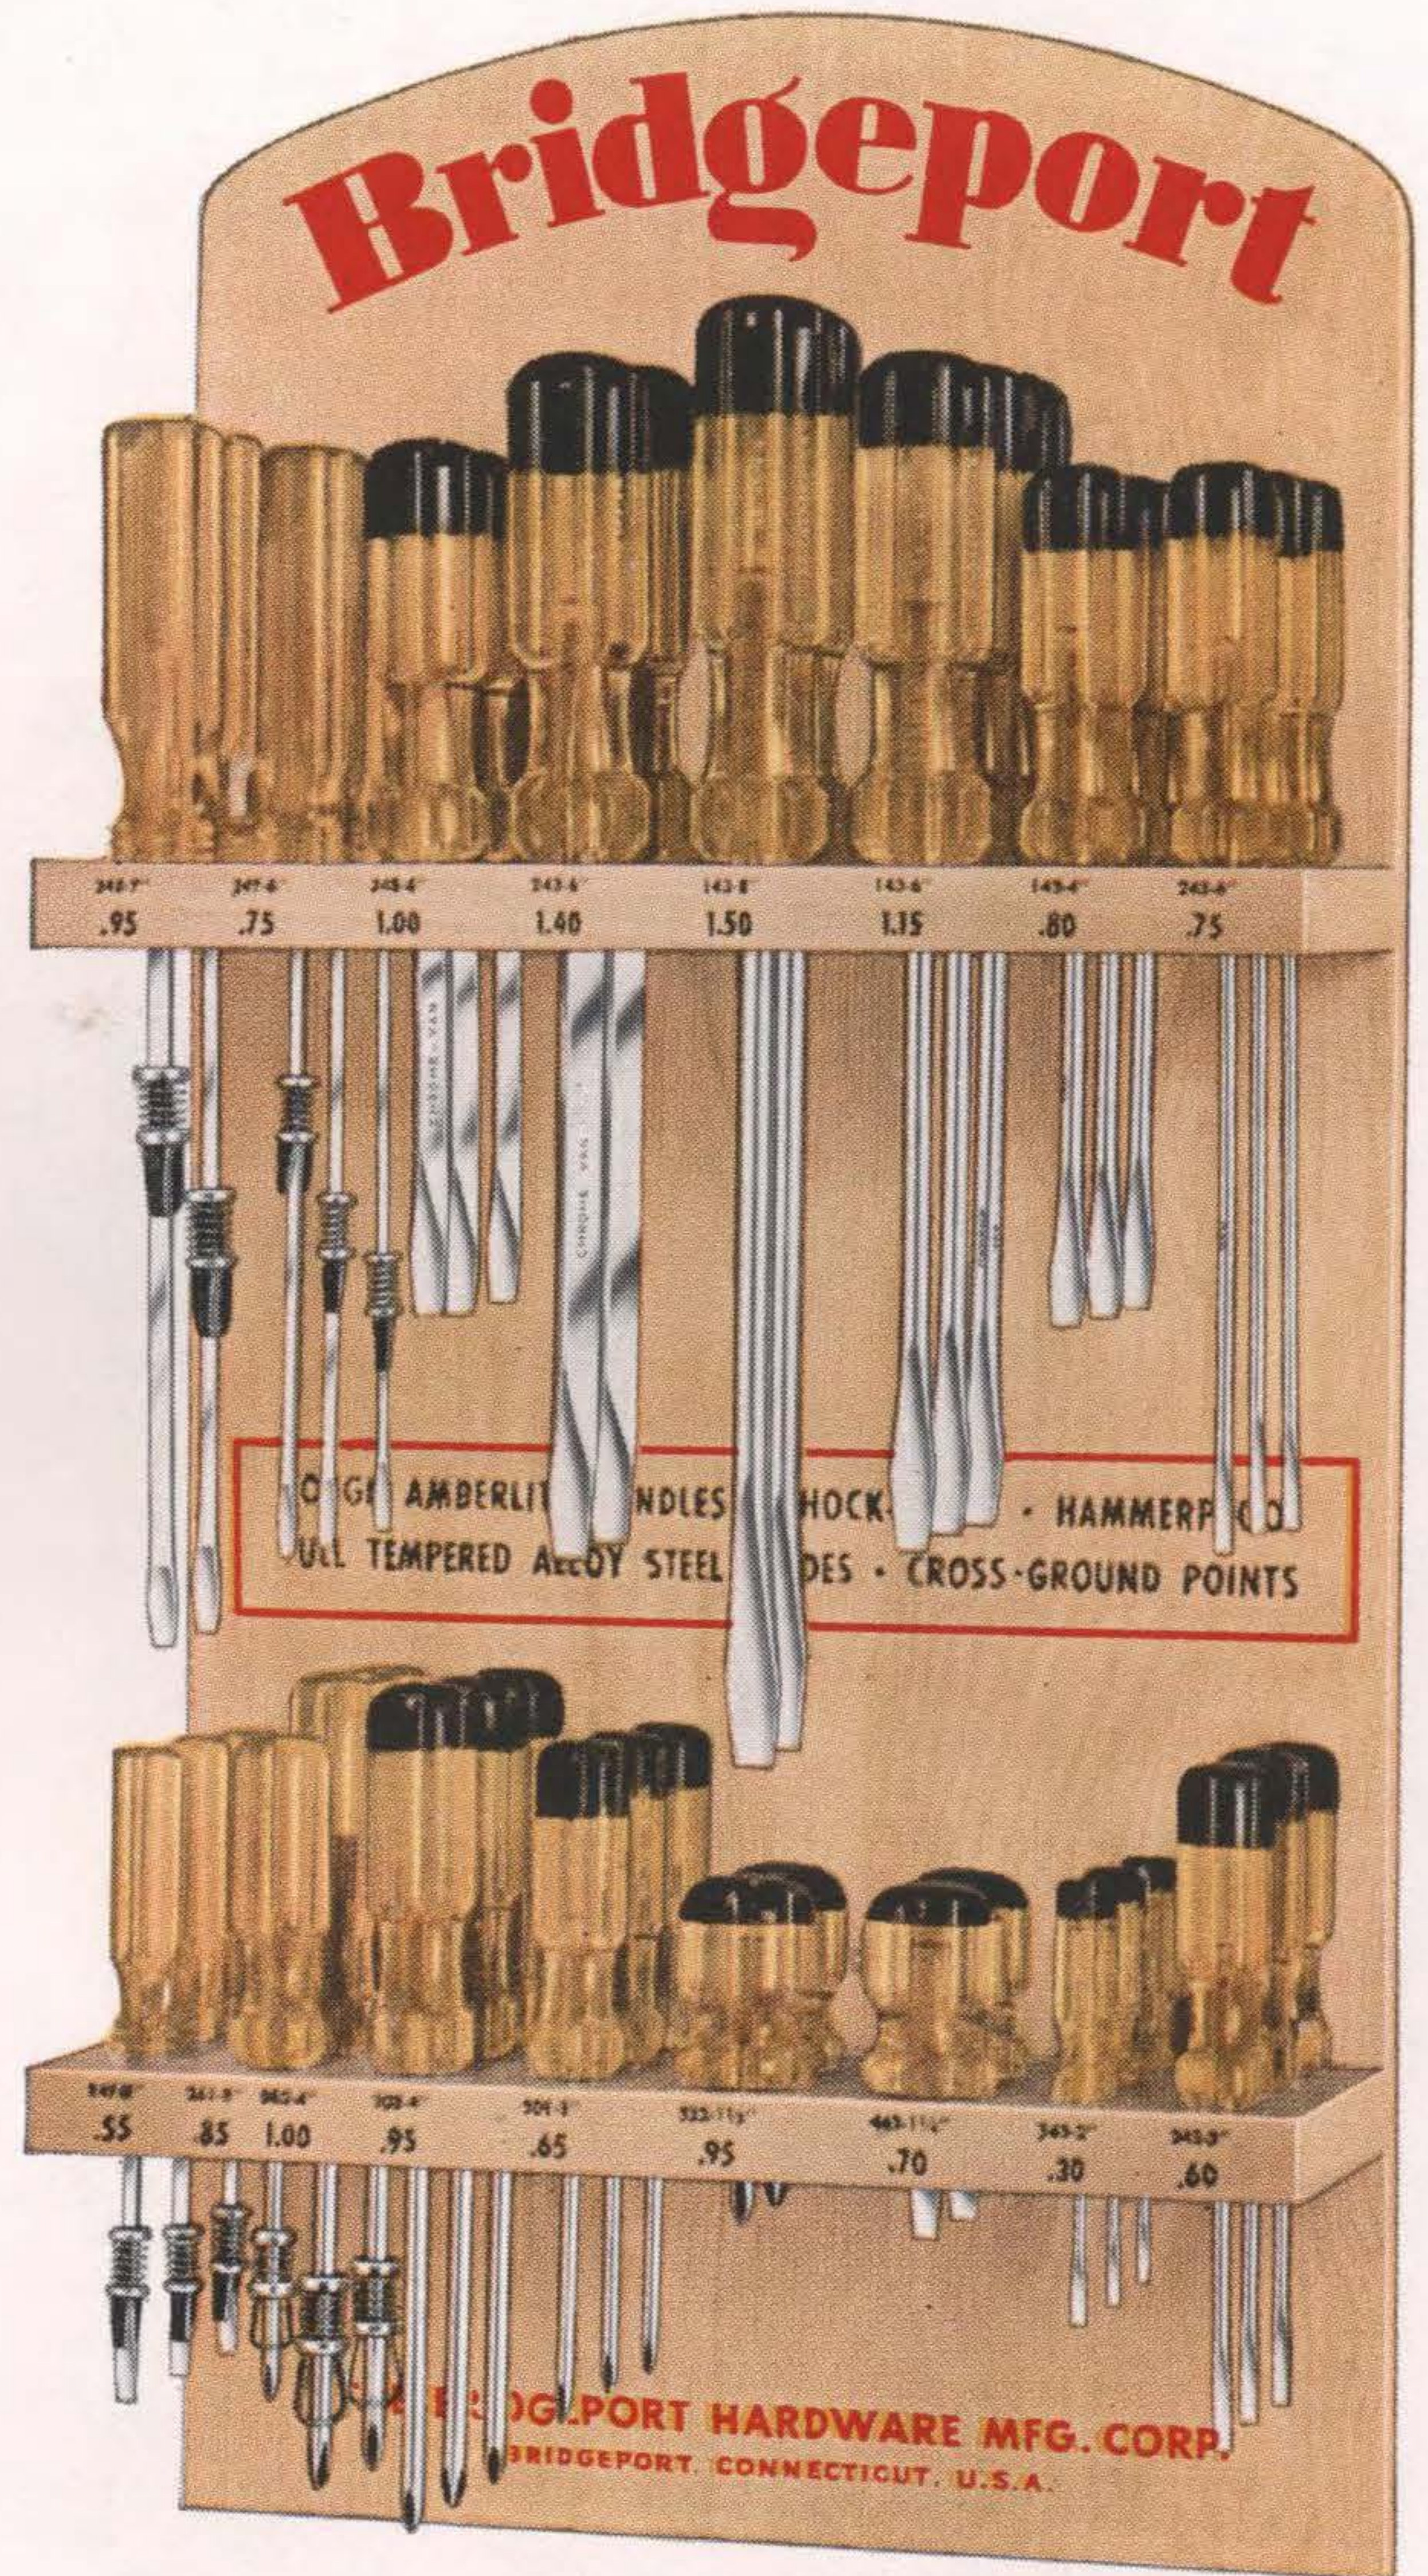

No. 600 comprises 43 top quality Amberlite handle screw drivers completely displayed on sales-making Dispenser Board as illustrated.

This "Junior" Assortment carries the same strong sales appeal as the famous No. 700 "Master" Assortment which has doubled the sales of high profit screw drivers for thousands of Dealers.

It provides a smaller unit stock and display of the same fine screw drivers.

There are 17 types and sizes, with from 1 to 3 of a kind, as listed on other side of this page. Each is a proven seller.

The Display is just the right size (12 x 23½ inches) to fit where space is limited.

THIS VALUABLE DISPLAY IS FREE! YOU PAY ONLY FOR THE SCREW DRIVERS

Sturdy Plywood Display Fixture, attractively decorated in red and blue. Two (2) square feet of concentrated selling space. Clearly marked with number, size and price of each item. Each tool is branded with number and size. Every tool is displayed to the best possible advantage. Shows customers the choices offered and facilitates selection. Saves dealer's time—is an efficient "self-salesman". Encourages impulse buying. Creates multiple sales and profits for dealer.

(Refer to other side of page for No. 600 complete specifications and prices.)

No. 600 "Junior" Screw Driver Assortment—Description and Stock Listing

AS ILLUSTRATED on other side of this page, the No. 600 Assortment comprises 43 Screw Drivers with the sales-making Display Dispenser Board which contains the complete stock.

There are from 1 to 3 of a kind in 17 best selling types and sizes, as listed and described below.

Included in this compact unit stock are both regular and genuine Phillips patterns in a range of sizes—for light and heavy duty—both plain and screw holding styles—round and square blades.

ALL ARE THE FINEST OBTAINABLE QUALITY

BLADES: Forged Alloy Steel with gauged, cross-ground points, full tempered, tested and polished blades.

HANDLES: Genuine bar Amberlite which is Hammer-proof, Shock-proof and Non-Inflammable. The extra large sizes and special design give maximum turning power. High gloss finish.

Each No. 600 Assortment is packed in a shipping carton.

Weight, each 14½ lbs. Size 12½x24x5 inches.

List price, each \$36.35.

This EXTRA SMALL Instrument Screw Driver is a top quality craftsman's tool. PRECISION-MADE to fit tiny screws . . . A necessity for small instruments and all fine work . . . Full-tempered steel blade, with hexagonal, shockproof handle of genuine non-inflammable Amberlite . . . Illustrated is the SALES-MAKING Dealer Display in 3 colors which is supplied with the No. 340 unit stock of 12 screw drivers.

SURE GRIP Screw Holding Screw Drivers

No Fumbling—No Loss of Time

This time-and-labor saving mechanism holds all types of screws securely on the screw-driver blade for easy, one-handed insertion or withdrawal. Note how the flexible, spring-steel fingers operate AUTOMATICALLY—open to grip the screw—hold it securely while driving—and release it when set.

SURE-GRIP'S perfected, automatic screw-holding mechanism is a permanent part of these fine tools. It retracts instantly on blade when not in use. It is built and guaranteed to give efficient, durable service. As illustrated and described below, (pages 9 and 10), all trade requirements are provided for by this compact, SURE-GRIP line of 12 styles and sizes, for both regular and Phillips screws.

" Matchless " Screw Drivers

"Matchless" Screw Drivers Are Noted For Their Tough Points, Springy Blades And Ability To Withstand The Severest Prying And Twisting.

Blades of tested, special analysis steel. In the No. 94, No. 97 and No. 970 styles, the blades run clear through the handles. Every blade is heat treated, and twice tested under greater pressure than the hand can apply.

Handles of selected, tough hardwood, extra large in diameter, with milled flutes, giving powerful G-R-I-P, and finished in black, non-chipping baked enamel. Fitted with heavy drawn-steel ferrule; riveted construction for maximum strength.

All steel parts finely polished. The steel butt may be hammered on without injuring handle.

No. 94 Matchless Mechanics' Screw Driver

Blade and handle are permanently bound together by long, wide wings in handle, and steel rivet through ferrule, handle and blade. The blade runs clear through, and has a heavy steel butt which can be hammered on without injuring the handle. This solid construction, as illustrated above, gives the added strength, balance and efficiency which distinguish Matchless No. 94 from ordinary screw drivers. Tested and guaranteed.

Packed one-half dozen in a box.

LENGTH OF BLADES	1½"	3"	4"	5"	6"	8"	10"	12"

The New No. 92 Matchless Screw Driver

Meets Critical Specifications For Built-in Quality at a Moderate Price.

The modern No. 92 is appreciated by craftsmen for these practical advantages.

The Solid (one-piece) Steel Bolster construction provides increased thickness at the handle end of blade to withstand hard usage. It enables the handle to stand more pounding than a good mechanic will give a screw driver and provides reinforcement against bending or prying strains.

The High-Carbon Steel Blade extends into handle much farther than on other screw drivers of this type, giving better balance and greater torsional strength. It is oil-tempered with the "Know How" of long experience. Precision-ground and gauged. Full-polished finish. Tested and guaranteed.

Handle is selected hard-wood with milled flutes. Black, baked-on enamel finish.

Bell-mouth Ferrule of heavy drawn-steel with high luster finish, the plastic insulator between ferrule and bolster, and the ample thickness of wood under the ferrule are other built-in quality features of the No. 92 Matchless Screw Driver.

Specifications

THE "YELLOW CROWN" SCREW DRIVER

These quality screw drivers—identified by their bright yellow crowns—have special analysis, high carbon steel blades, uniformly tempered and highly polished. Points are *dual* tempered which makes them amazingly tough. Heavy bright plated steel ferrules are fastened on by a bead lock. Rigid wings prevent the blade from turning in handle. Fluted, black hardwood handles are thick, sturdy and easy to grip.

No. 40 and No. 42 "Hooker" Crate Opener

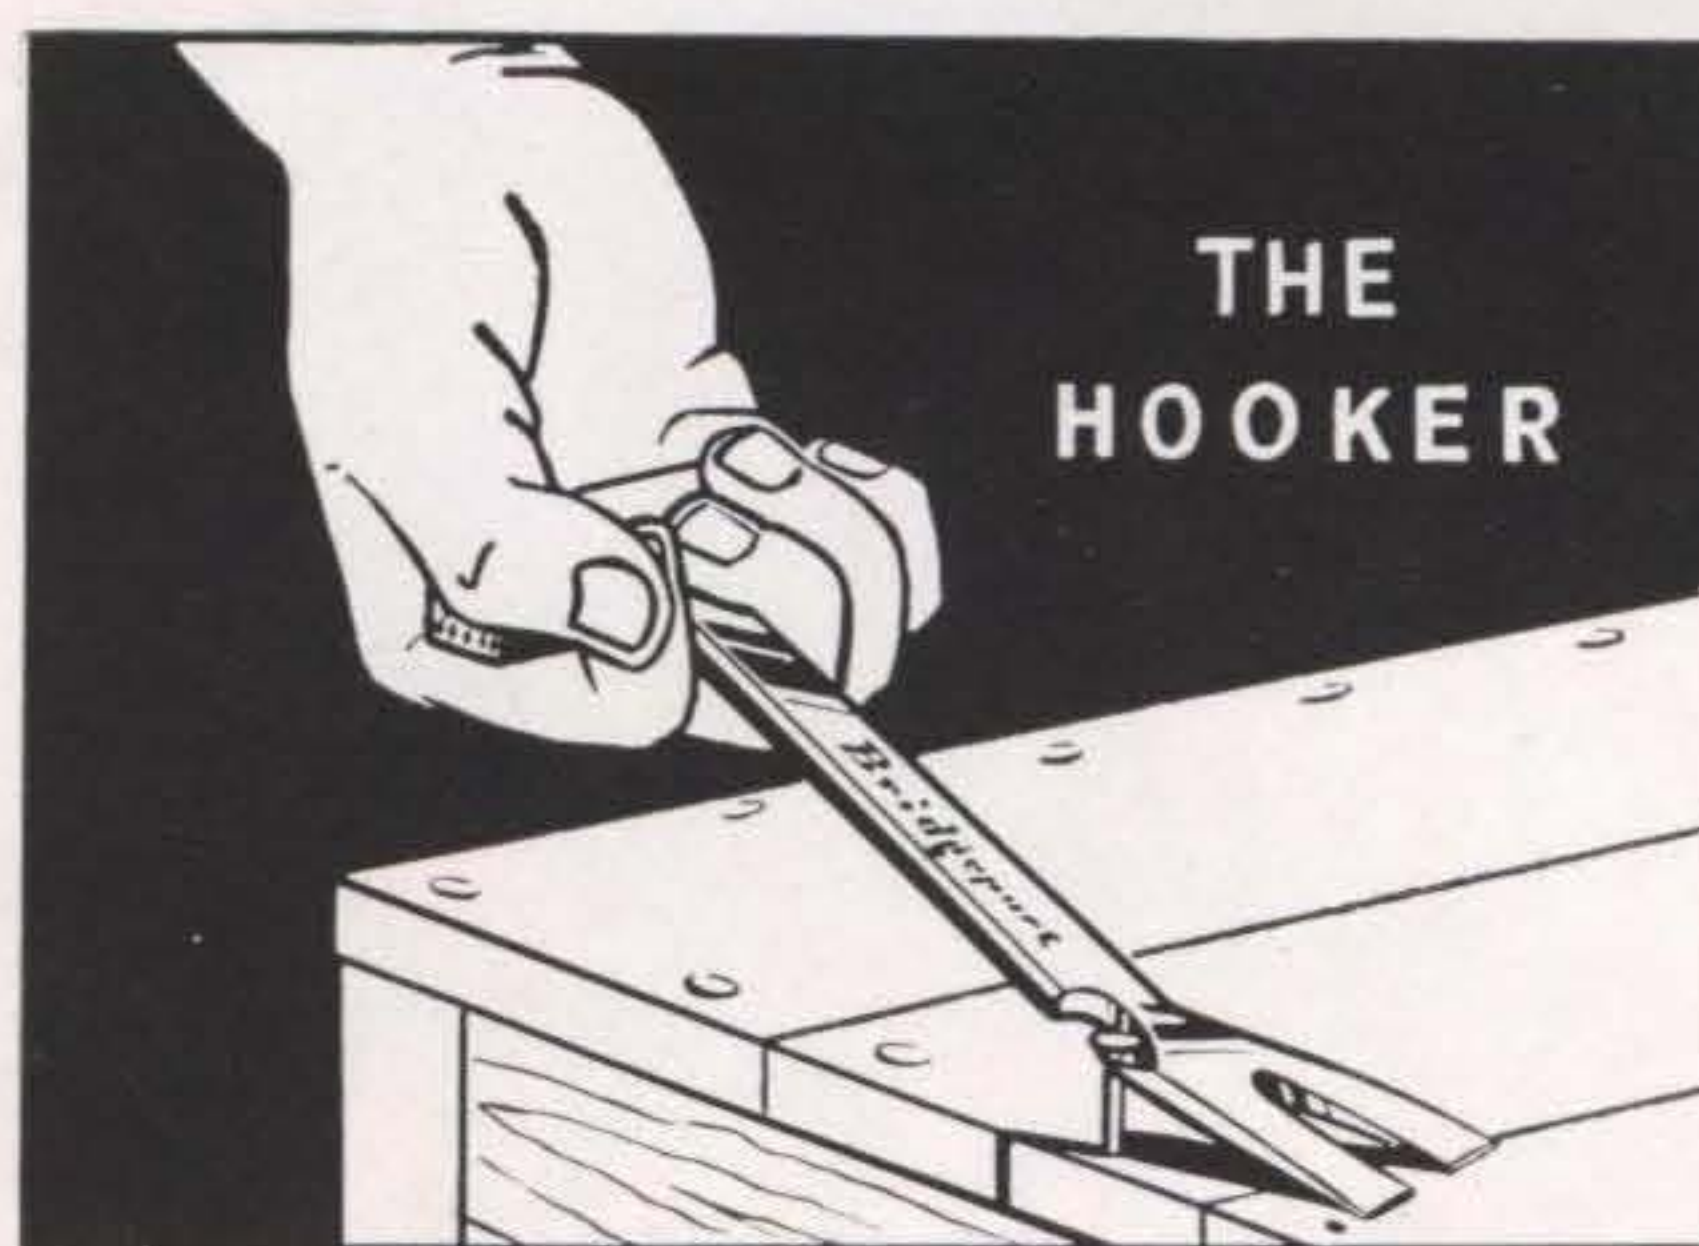

A superior tool for opening and nailing up boxes, crates, barrels, etc. Can be carried in the pocket. Grips nail in any position and at just the right angle. In addition to the nail pulling claw, The Hooker features a second nail slot in the side — an exclusive patented feature — makes it easy to pull long nails which cannot be drawn with ordinary crate openers.

Made in one piece of high-quality forged and tempered steel.

One face of the hammer head is scored—the other is smooth. Round edges.

Weight, 15 oz. Length, 9 inches

NO. 40

Natural finish with claw and face of head polished

List price per dozen, \$12.40

Packed 1/2 dozen in a box.

Gross Weight, per case, 85 lbs.

NO. 42

Plated finish with polished sides of claw and head.

List price per dozen \$19.50

Six dozen in a case.

Net Weight, per case, 70 lbs.

"Box Terrier" Crate Openers

One piece of fine quality forged steel. Claw and hammer are hardened, tempered and tested. All edges are rounded. Fully guaranteed. Made in two sizes, 14 oz. and 10 oz. as listed below.

NO. 82 BOX TERRIER CRATE OPENER (plated finish with buffed sides of claw and head). One face of the hammer head is scored — the other is smooth.

Weight, 14 oz. Length, 9 inches

Packed 1/2 dozen in a box; 6 dozen in a case

Gross weight, 80 lbs.; net weight, 65 lbs. Volume, 1 1/4 cubic feet

List price per dozen, \$17.20

NO. 96 BOX TERRIER CRATE OPENER (natural steel finish, polished sides of claw and head). One face of the hammer head is scored—the other is smooth.

Weight, 10 oz. Length, 8 inches

Packed 1/2 dozen in a box; 6 dozen in a case

Gross weight, 60 lbs.; net weight, 45 lbs. Volume, 1 cubic foot

List price per dozen, \$9.00

NO. 98 BOX TERRIER CRATE OPENER (plated finish with buffed sides of claw and head). One face of the hammer head is scored — the other is smooth.

Weight, 10 oz. Length, 8 inches

Packed 1/2 dozen in a box; 6 dozen in a case

Gross weight, 60 lbs.; net weight, 45 lbs. Volume, 1 cubic foot

List price per dozen, \$15.60

No. 76 and No. 78 "Baby Terrier" Crate Opener

Just right in size and weight for light work, yet powerfully built. Forged in one piece from quality steel, carefully hardened and tempered. One face of the hammer head is scored—the other is smooth. No sharp edges.

Length, 6½ inches. Weight, 8 oz.

Packed ½ dozen in a box; 6 dozen in a case

Gross weight, 48 lbs.; net weight, 36 lbs.

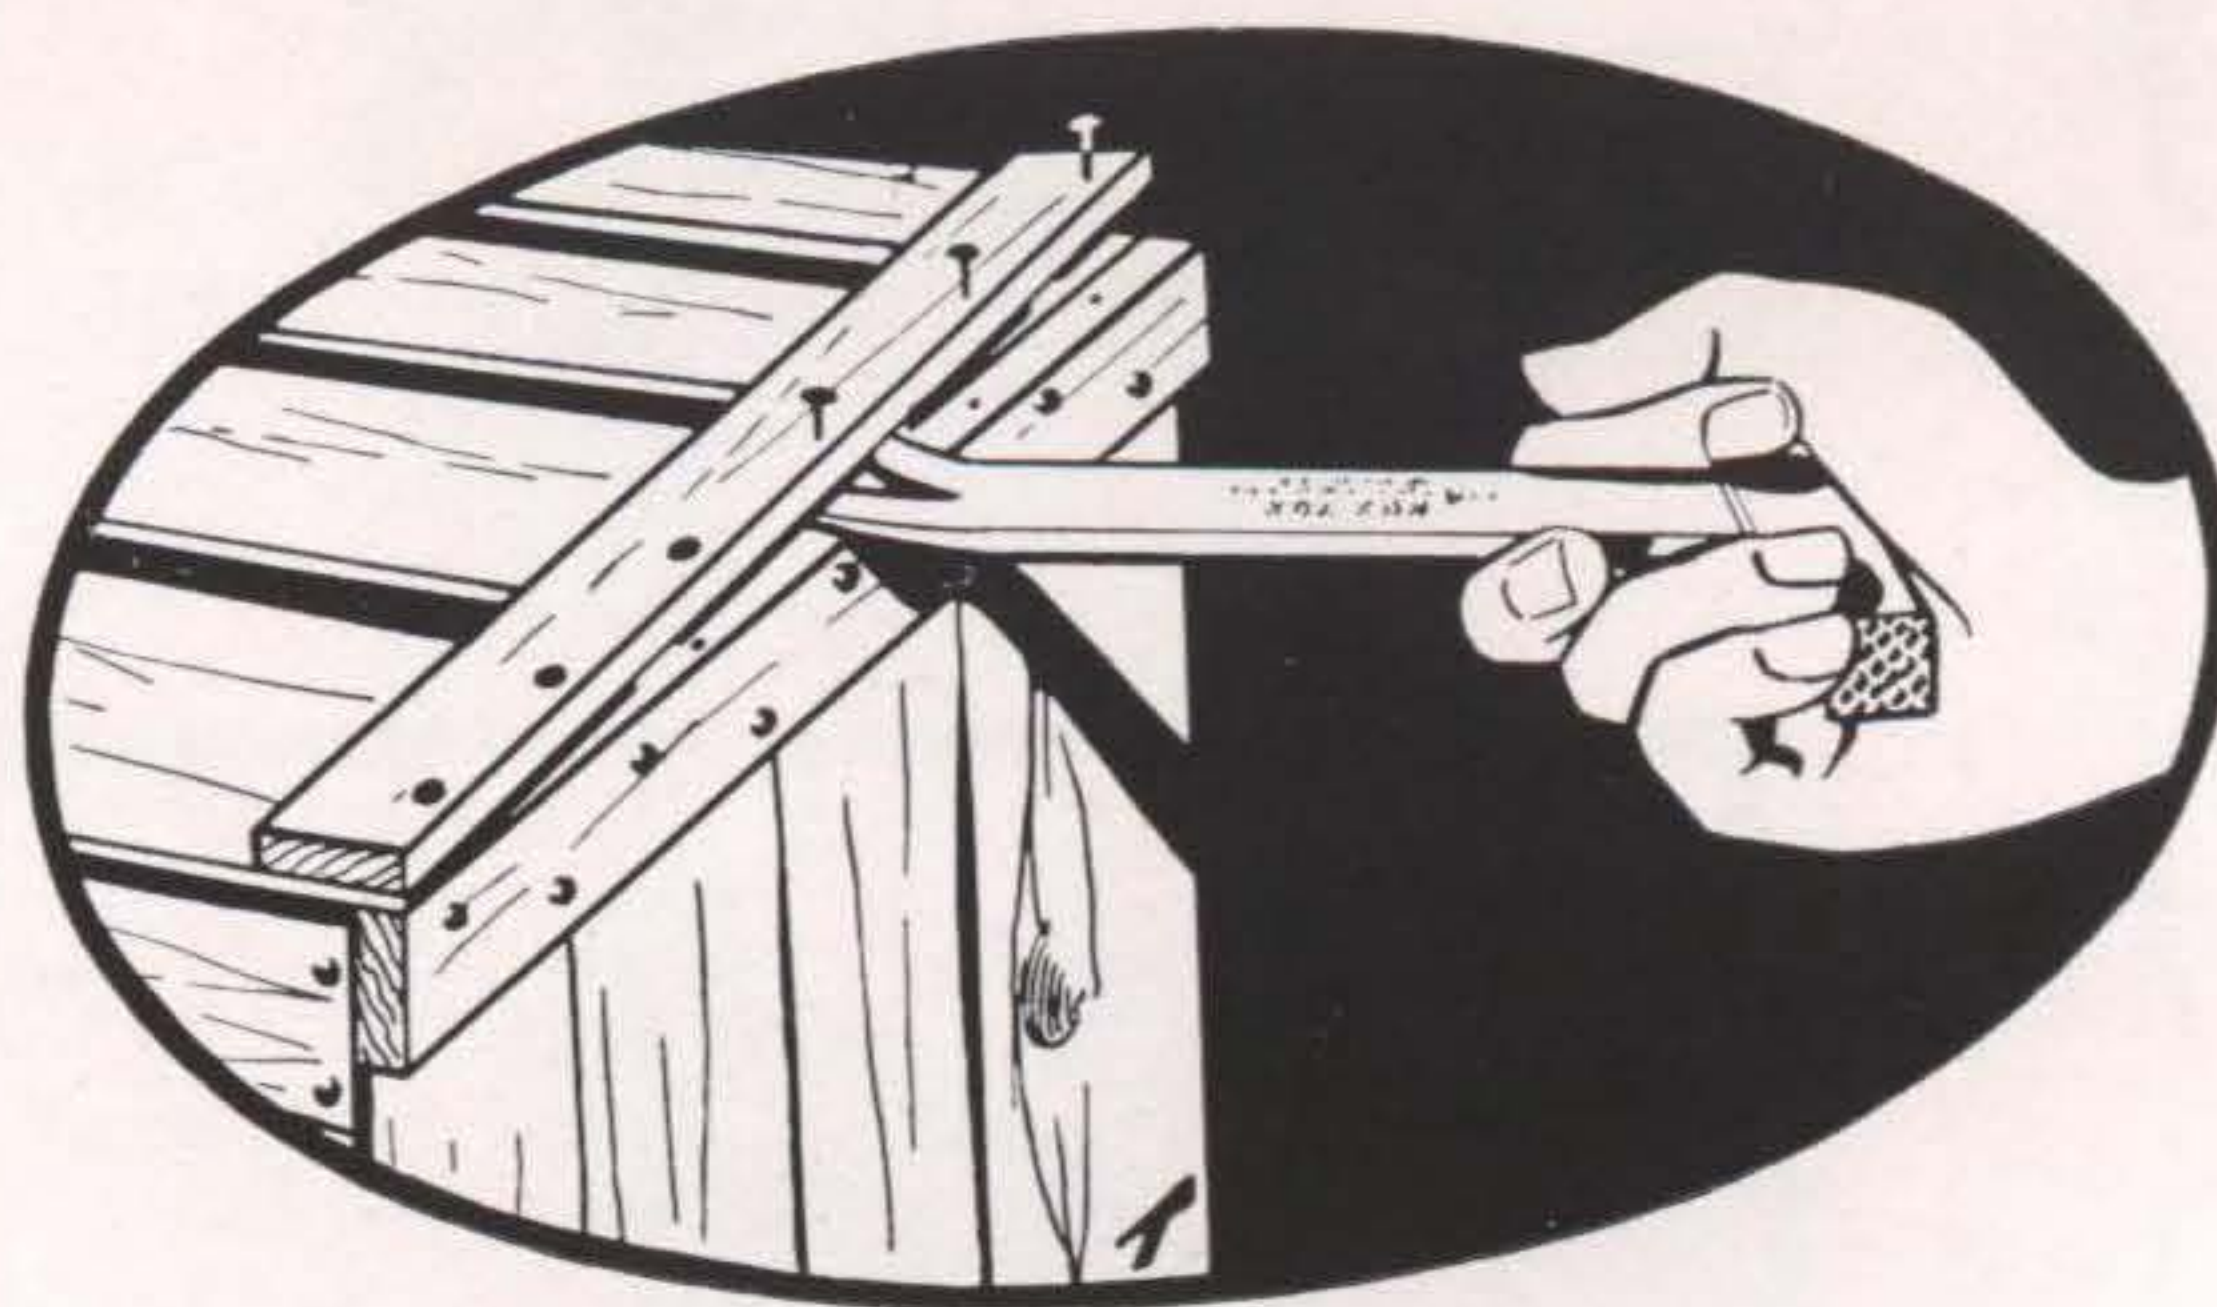

Volume, ¾ cubic feet

No. 76 (Natural steel finish, polished claw and hammer face)

List price per dozen, \$8.65

No. 78 (Plated finish with buffed sides of claw and head)

List price per dozen, \$13.70

No. 70 "Nox-Tox" Crate Opener

Has the same strong construction as the Box Terrier Crate Opener. Forged all in one piece of high quality steel, with hardened, tempered claw and hammer. One face of hammer head is scored—the other is smooth. All edges are rounded. Fully guaranteed.

Length 9 in. Weight 14 oz. Packed ½ doz. in box.

No. 70 (Natural steel finish, Polished claw). *List price per dozen, \$9.40*

6 dozen in a case. Gross weight, 80 lbs.; net weight, 65 lbs.

Belt Ax . . . "Never Loses Its Head"

Safe For Boys • Dependable and Efficient for Adults and Sportsmen

All Steel Construction. Head and Handle one piece, with inlaid 2nd Growth Hickory grips.

Hammer forged, solid steel all in one piece (see illustration showing end view). Scientifically heat-treated and tough tempered to hold a keen edge. Smooth black finish with polished hammer-face and honed edge. Handle is natural, varnished finish with red butt-end.

Approved by the Air Corps and other U. S. government services.

(End View)

Long, slim flat taper of head (made possible by elimination of bulge for eye) greatly increases cutting power, balance and general efficiency.

A belt ax which has met the most exacting requirements from the frozen Arctic to the Tropical Jungles.

*Weight, 27 oz. Length 13½ inches
Cutting Edge—3¼ inches

The Modern EVERTITE CLAW HATCHET

No. 65

Ideal for
The Building Trades, the
Home, Farm and Camp

KEEN-CUTTING
•
HAND FORGED
ALL-IN-ONE PIECE
•
LIFE-TIME
DURABILITY

The Hatchet which Keeps its Temper and Never Loses its Head.

NO. 65 EVERTITE provides all-around usefulness found in no other type of hatchet. Combines the heft, balance and power of an ax plus a highly efficient nail-claw, with the advantages of a half-hatchet. Head and handle are forged in one piece from high-carbon bar steel, heat-treated and tempered. It is built for a life-time of service . . . the head can never loosen or come off . . . the handle cannot break.

BLADE—The slim, flat, keen-cutting blade stays sharp. It is of special half-hatchet design with edge at the proper angle to the handle, (3°), for easy, accurate chopping. Fully heat treated and tempered.

HANDLE—Cannot be broken. The extra length (11 inches) of this improved design is well proportioned for proper balance and increased striking power. Fitted with oval inlaid, riveted hardwood scales.

NAIL CLAW—Pulls long nails easily. The long steel handle gives powerful leverage to the under-the-head nail slot. This feature adds greatly to the all-around utility of the tool.

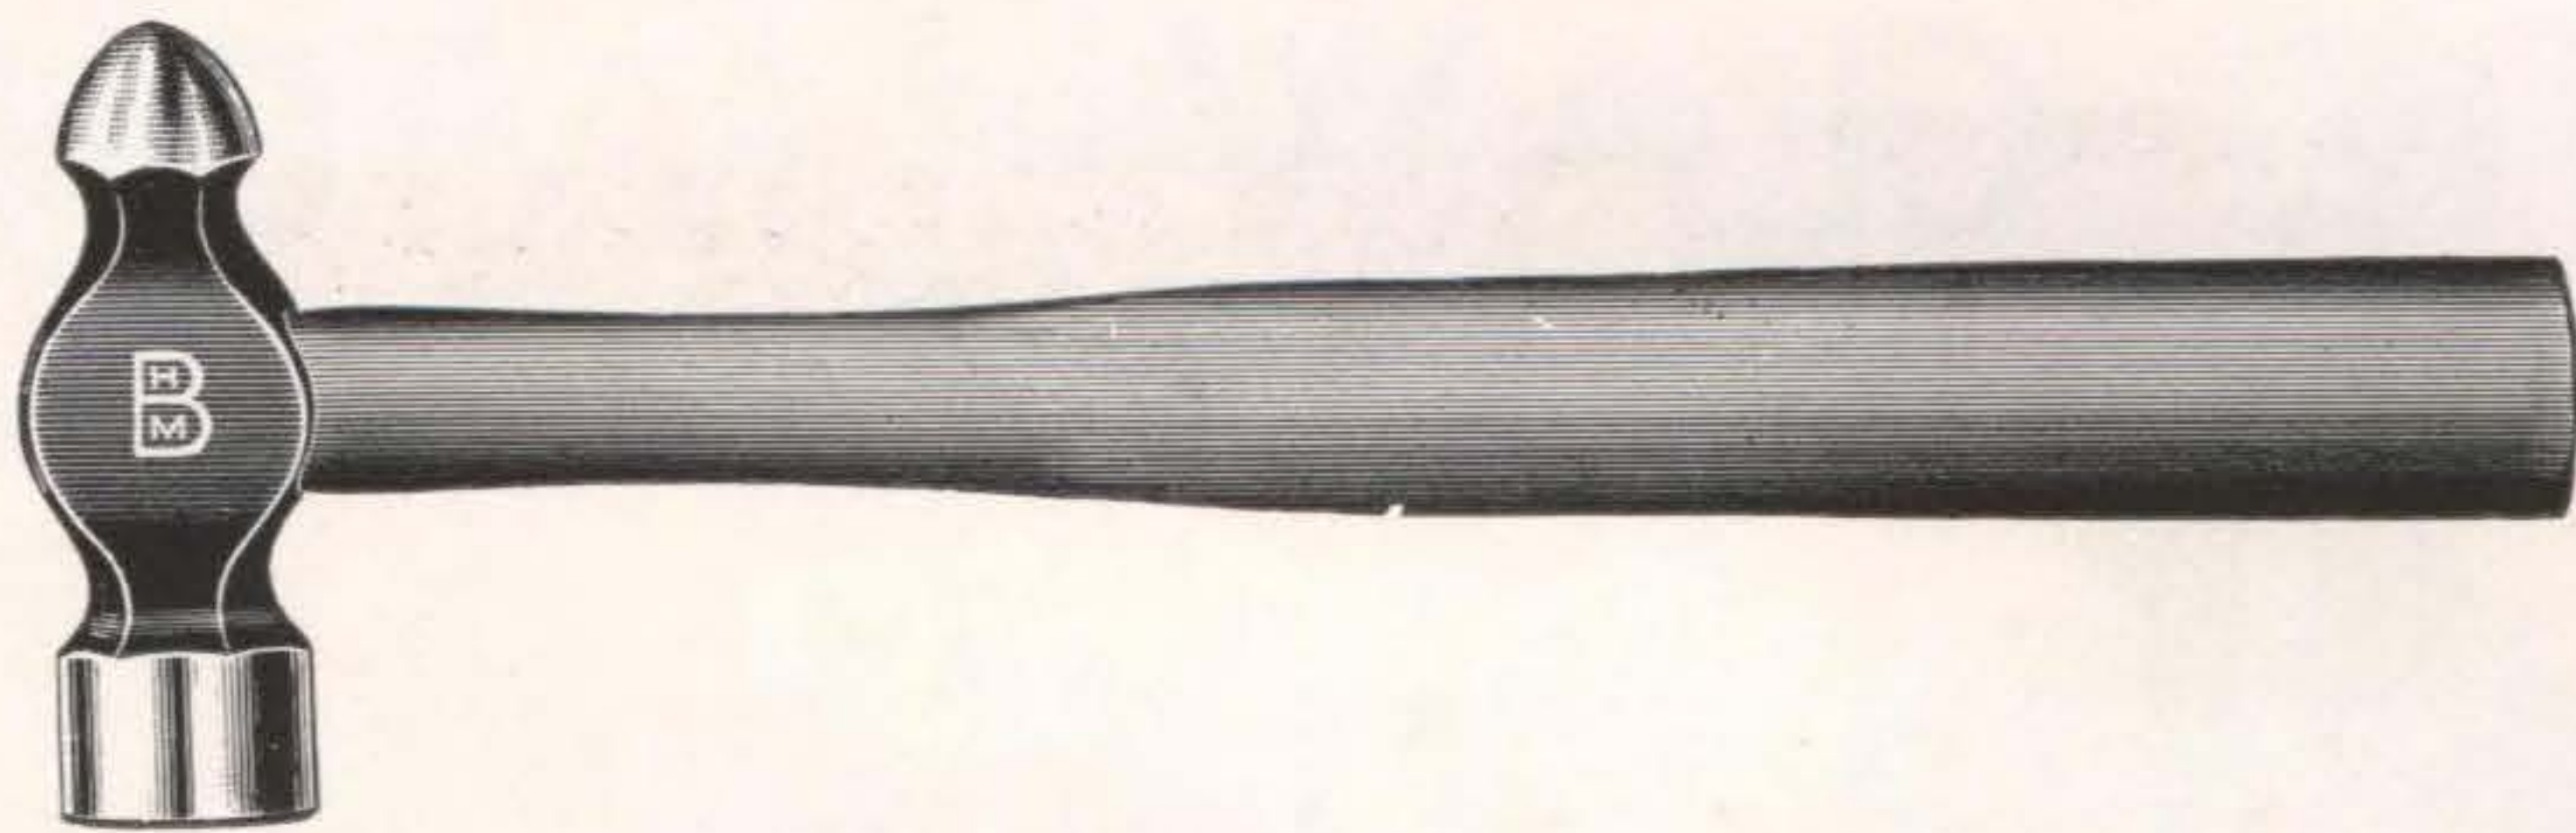

HAMMER HEAD—Well balanced with just the right "hang." The face is $1\frac{1}{2}$ by $\frac{13}{16}$ inch with beveled edges. Properly hardened and tempered.

FINISH—Smooth black baked-enamel; cutting edge is polished and honed; varnished handle with red tip. Each tool branded as shown in illustration above. Guaranteed.

"FREECUT" METAL SNIPS

New Skills and Tough Alloy Metals
Require Modern Cutting Tools.

Necessary Tools for

**PLUMBERS, TINSMITHS,
AVIATION, AUTO and
OTHER MECHANICS.**

"FREECUT" METAL SNIPS are precision-made for accurate work on duralumin, stainless steel and other tough sheet metals. Recommended for thicknesses up to 20 gauge. The Jaws are hammer-forged, tempered, chrome-vanadium Alloy steel. Cutting edges are serrated for non-slip grip on metal. Spring actuated for fast work. Tremendous cutting power is developed by the compound leverage and long steel handles. Concave relief pattern—just right for free easy cutting on curved (right or left), straight or irregular cuts. Nicely finished with polished jaws and black-enameled, knurled handles.

ADJUSTABLE HACK SAWS

No. 30 PISTOL GRIP with TENITE HANDLE

FINEST QUALITY THROUGHOUT

The new No. 30 Bridgeport Hack Saw is engineered for maximum efficiency and durability.

DESIGN . . . This fine, closed-handle, pistol-grip extension frame has perfect balance and "hang." Adjustable to cut in four directions. Takes 8-inch to 12-inch blades. Swedged steel studs with washer and large wing-nut at rear provide quick, positive adjustment and any desired tension on blade.

UNBREAKABLE HANDLE . . . In keeping with the quality of this fine tool, the steel handle is fitted with perfect-grip genuine Tenite scales—unbreakable, knurled, molded to fit the hand. The attaching telescope screws are solid brass.

FRAME . . . Extra strong, all-steel, round edge $\frac{11}{16}$ inch wide and $\frac{3}{16}$ inch thick, insures proper alignment and eliminates distortion. The closed type handle is integral with the rear portion of the frame — gives rigid support and protects the user's hand. Depth of cut $3\frac{1}{4}$ inches. Overall length $16\frac{3}{4}$ inches.

FINISH . . . Attractively finished in rust-proof, heavy, nickel-plate. Stamped: BRIDGEPORT U.S.A. The Tenite handle is a brilliant green.

BLADE . . . One fast, clean-cutting 10-inch flexible blade is furnished with each No. 30 Hack Saw Frame.

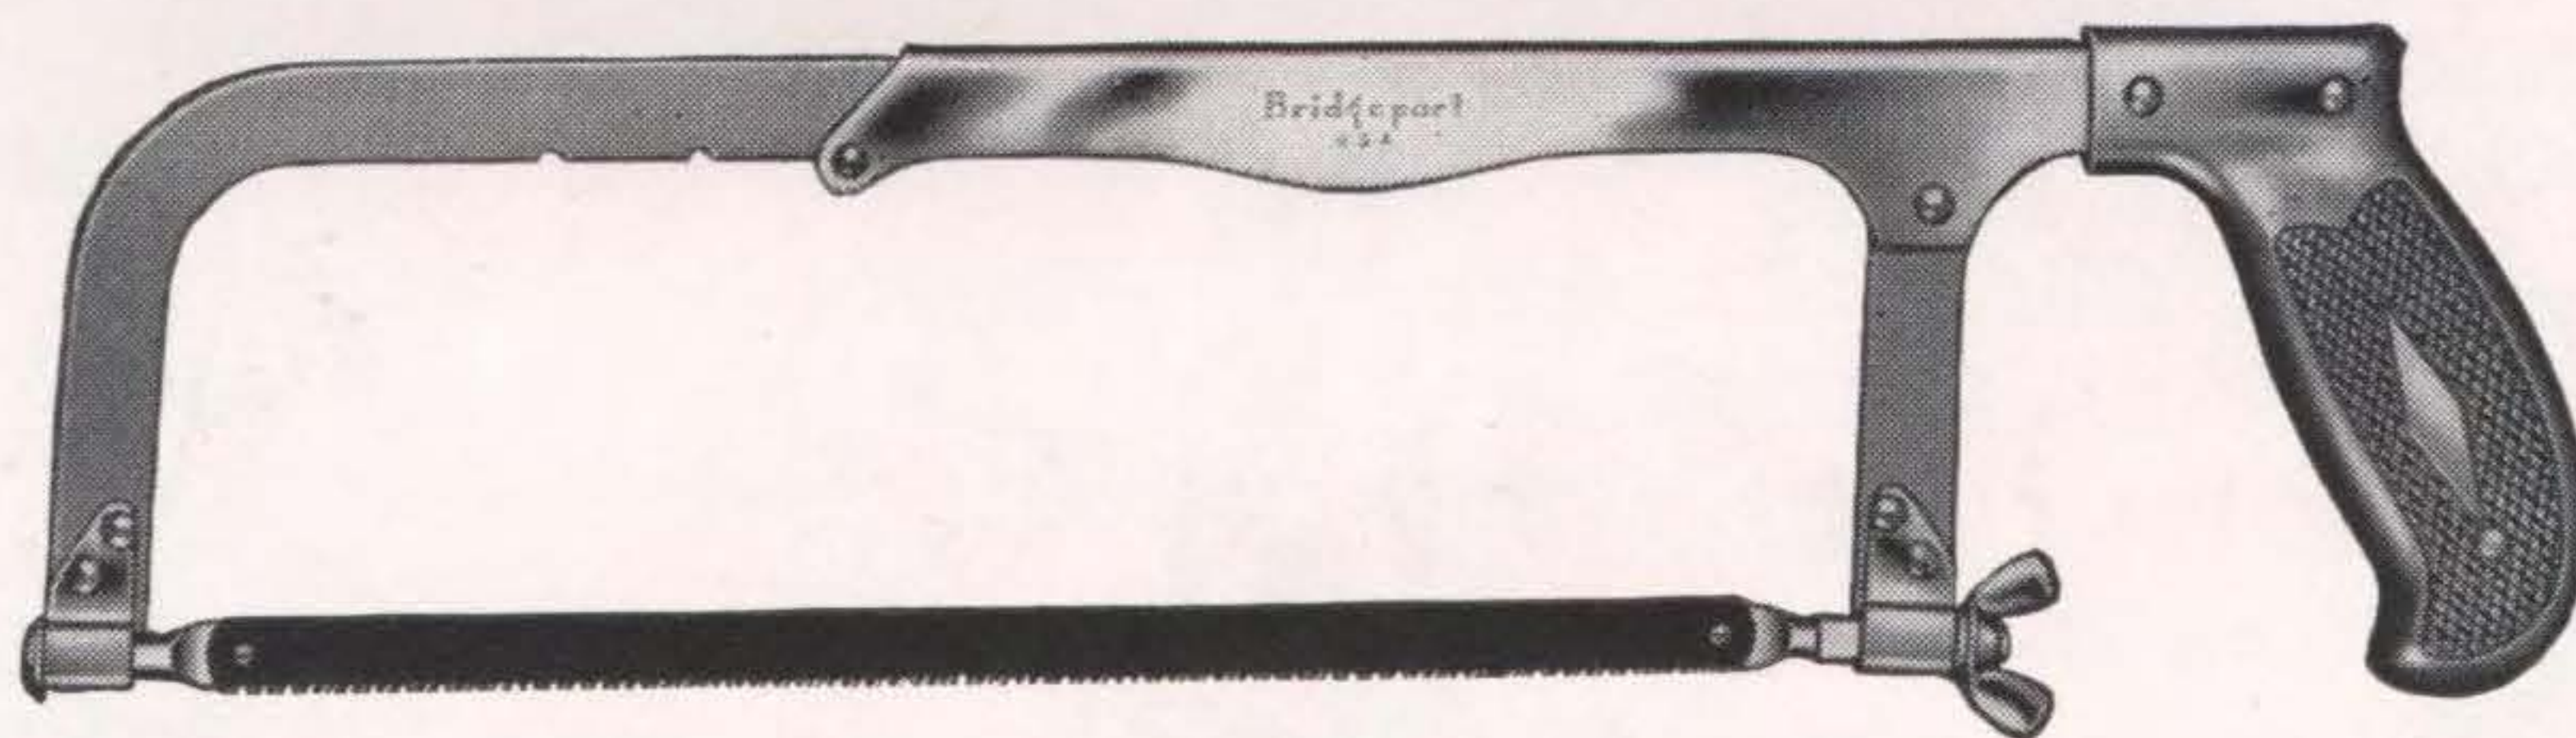

Packed one in a box.

Weight, per dozen 21 lbs.

Packed 6 dozen to a case.

List price, per dozen \$30.00.

No. 31 PISTOL GRIP, ALL-STEEL, OPEN HANDLE

This modern Hack Saw features All-Steel frame and handle. Adjustable for cutting in four directions. Takes 8-inch to 12-inch blades. Large wing-nut at rear gives ample tension on blade and permits quick adjustment.

STEEL FRAME . . . Strong and rigid, round-edge steel ($\frac{11}{16}$ inch wide and $\frac{3}{16}$ inch thick) with reinforced back. Throat $3\frac{1}{4}$ inches.

FINISH . . . Nickel-plated with Bright-nickel back and handle. Stamped: BRIDGEPORT U.S.A.

STEEL HANDLE . . . The comfortable, hand-fitting, knurled-steel handle is permanently riveted to the frame.

BLADE . . . One 10-inch metal cutting blade is furnished with each No. 31 frame.

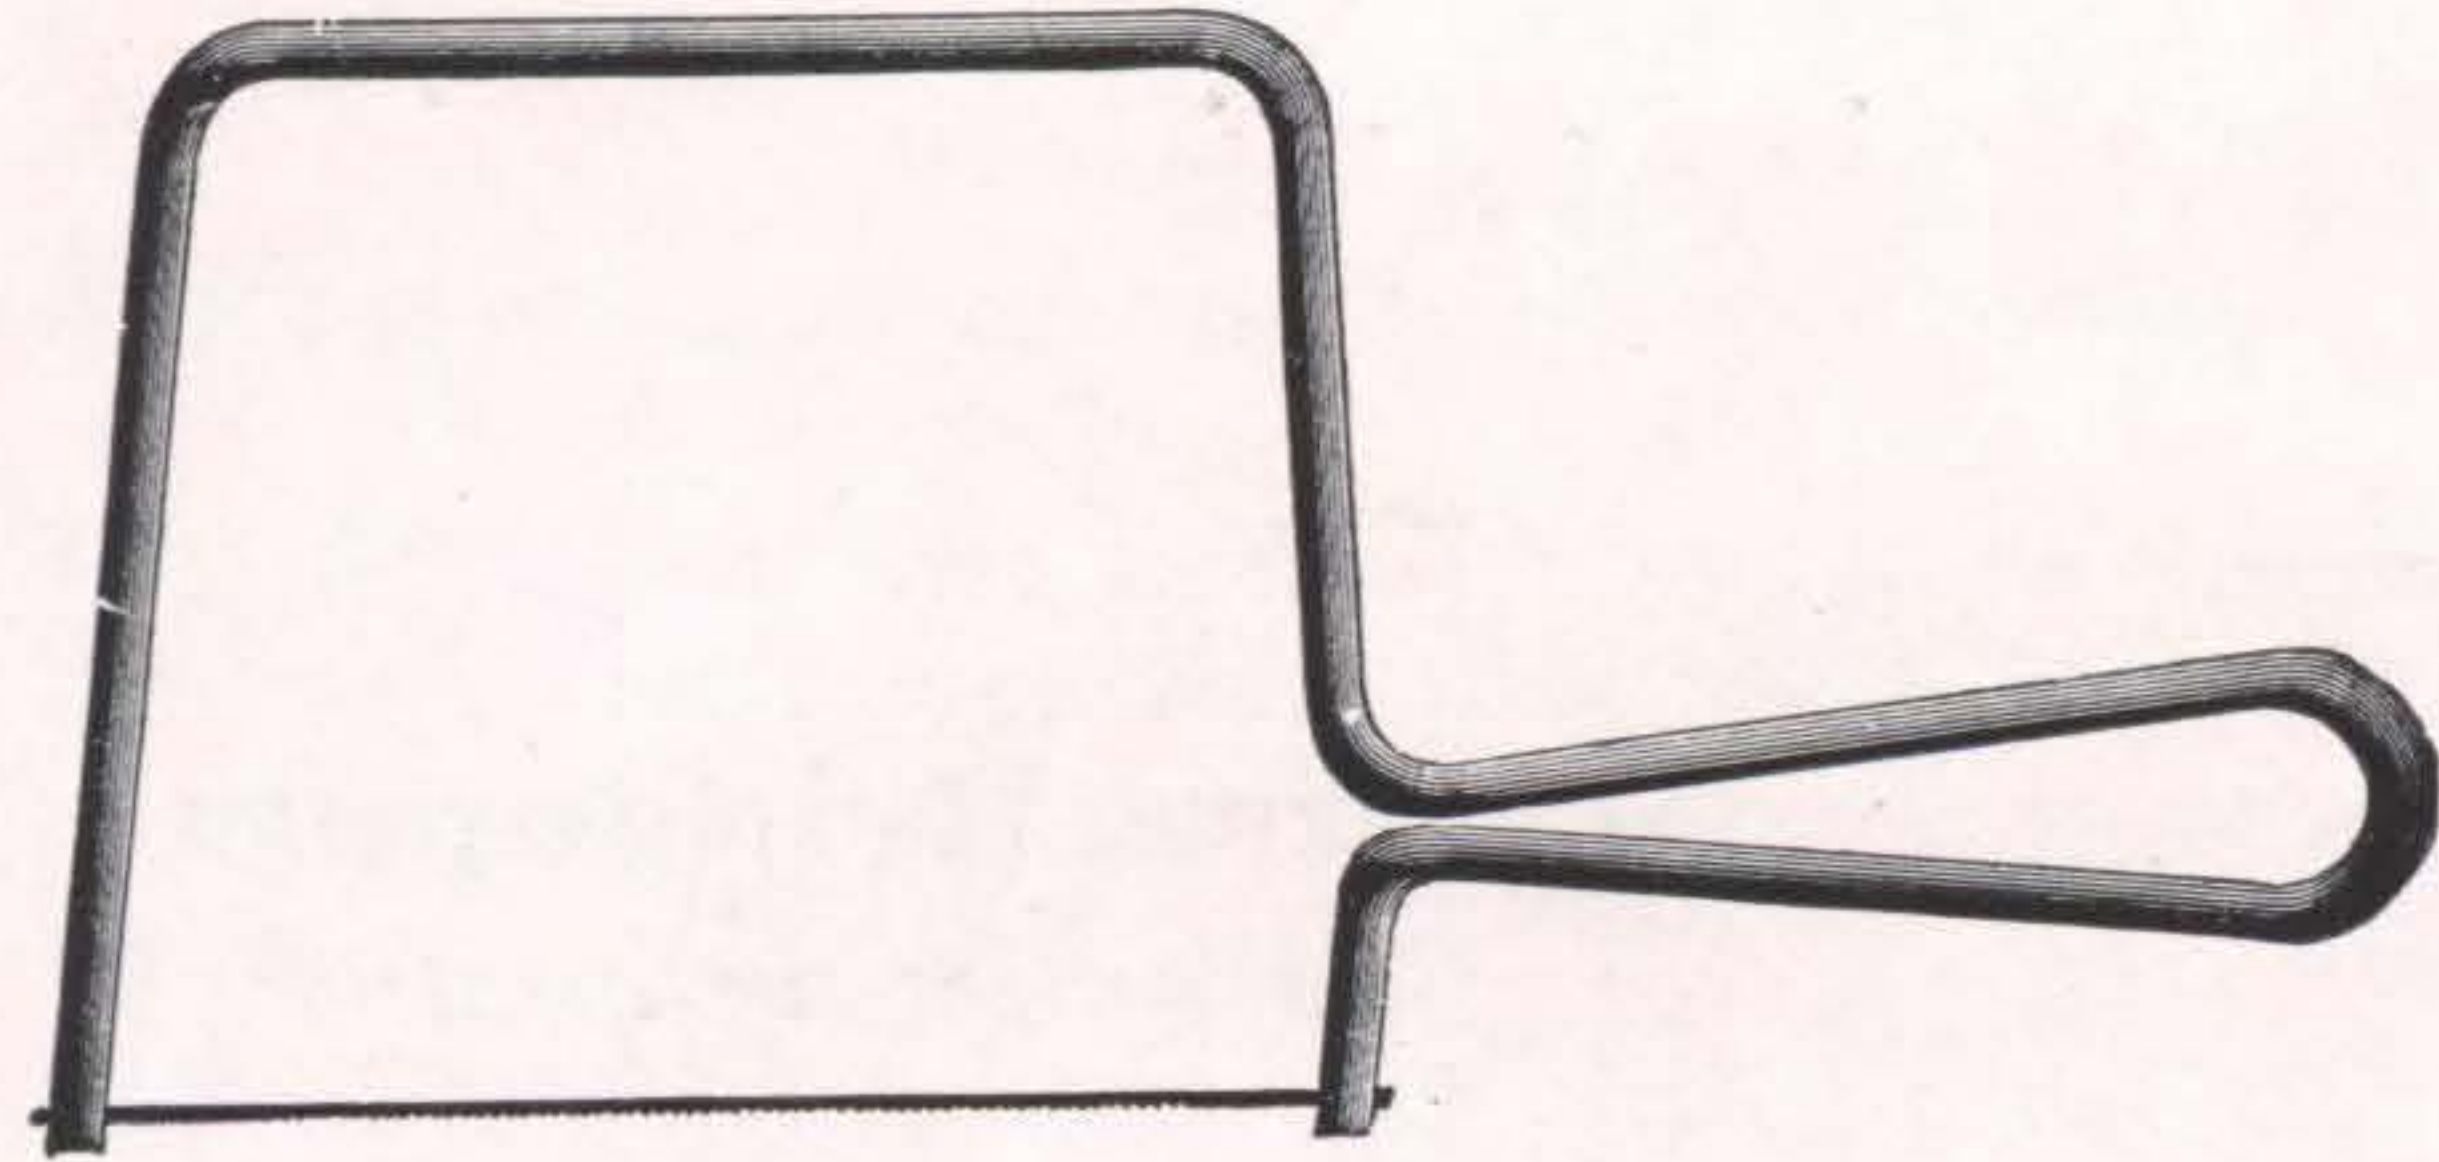

Packed one in a box.

Weight, per dozen 21 lbs.

Packed 6 dozen to a case.

List price, per dozen \$24.00.

No. 380-C Assortment Wood Chisels

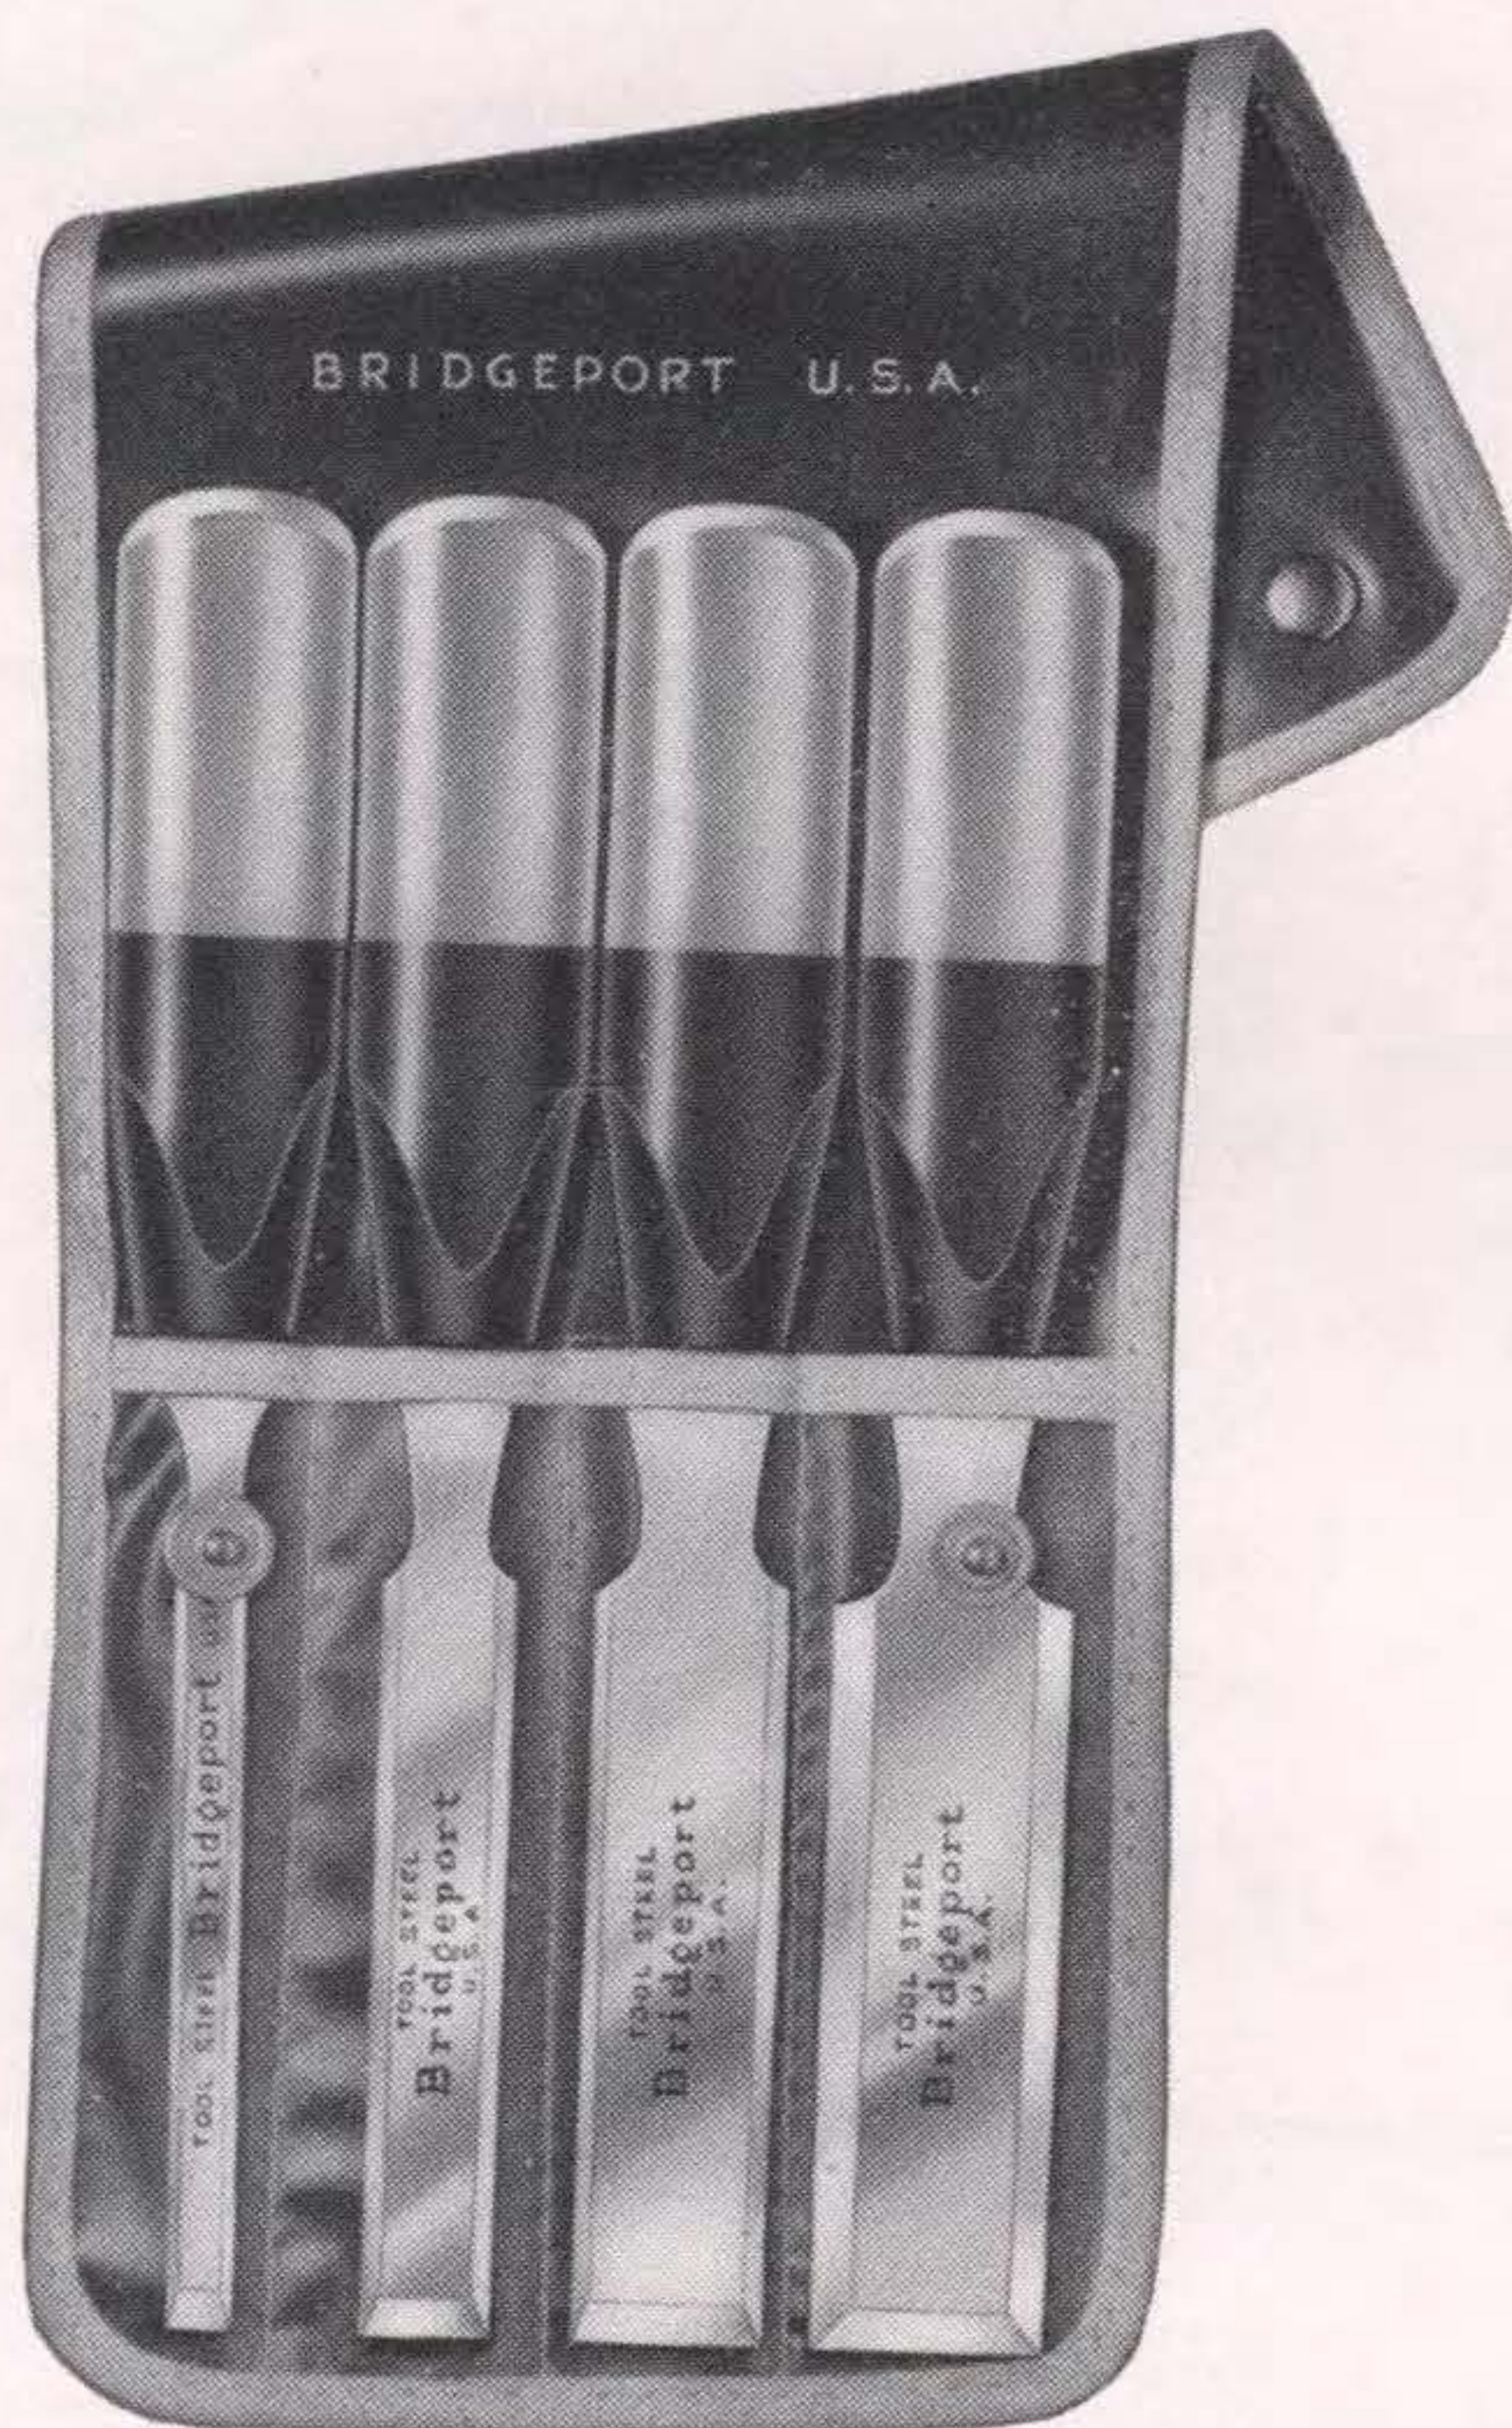

Value!

HANDLE: Genuine Amberlite. The toughest material ever developed for a tool handle. It's hammer-proof. Absorbs the blow without shock to the hand . . . Oval design gives a firm, easy grip . . .

BLADE: Made from high grade chisel steel, electrically heat treated and oil tempered. Temper accurately graduated from a cutting edge of extreme toughness to a tough yet springy temper in the tang. Blades have correctly proportioned bevels with straight lines . . . tested to cut rock maple.

This is an unusual value in a wood-chisel at these popular prices.

FINISH—Clear non-inflammable Amberlite handles with lower portion in lustrous black . . . blades are bright polished and treated with rust preventative . . . the light weight and short length, plus the oval handle, makes this wood chisel perfectly suited for fine cabinet work. It takes the place of much higher priced butt chisels.

NO. 382 SET in plastic roll. One each, 1/4-inch, 1/2-inch, 3/4-inch and 1-inch in a fine 2-tone, durable plastic kit as illustrated. Weight, each, 1 lb.
